Mitch Weiser and Bonnie Bickwit, two Dewey students, have been missing since July 27, four months now. They were on their way to the Watkins Glen concert from a Wel-Met summer camp in Narrowsburg N.Y. when last seen.

Efforts in locating them have so far been fruitless. Dewey students Robert Sapolsky, Noah Lewin, Joel Stein and others have been to the Village on Mrs. Weiser's request to seek out any information. Police say they are tracing any leads turned up by the students.

Their parents are extremely worried and would appreciate any help. All students who attended the concert and think they may have seen either Mitch or Bonnie, please notify Mr. Heinegg in room 327. Any leads would be helpful and, of course, greatly appreciated.
